

650L BLOO UNDERGROUND HOLDING TANK

Product Code: **UHH650**

The 650L BLOO Underground Holding Tank is a smaller option than the 1250L Holding Tank. These are perfect temporary storage solutions for your waste water. This product is supplied with a standard 2" BSP threaded outlet.

All Bloo Septic tanks are fully compliant with AS/NZS1546.1:2008

When looking into holding tanks for sale and holding tank prices, you may find the 650L Bloo Underground Holding Tank or the [1250L Bloo Underground Holding Tank](#) a great solution. They are light, strong and easy to install. If you require septic tank systems, our [4500L](#) or [3250L](#) Capacity Septic Tank options may be of interest (see [Septic Systems Tasmania](#)).

FEATURING

- Strong design, yet light and easy to handle
- Fully compliant with Australian Standards AS/NZ1546.1:2008
- Ideal for temporary storage of waste water
- Low profile design for easy installation
- Range of outlet fittings available
