

900 LTR AQUAPLATE STEEL RAINWATER TANK

Product Code: **AQT900-B**

Tasmanian Made Steel Corrugated Rainwater Tanks

In response to the ever-growing demand water conservation products, Orion Tanks Tasmania have a comprehensive range of both traditional and contemporary styles of rainwater tanks. Orion Tanks have been manufacturing rainwater tanks for over 20 years, and our finished products embody our passion for quality workmanship.

- Manufactured from Australian made steel which makes them tough, durable and able to withstand the harsh Australian conditions.
- Easy install with tap/valve and fit-up kit supplied with all tanks.
- Non-standard fit-up and additional outlet options are available on request, to suit your requirements.
- Tanks are available in a wide range of colours, with capacity to match many existing Colorbond® colours.
