

CENTRE DISCHARGE BAG SPLITTER

Product Code: **JBBSA/2**

JACKY® Centre Discharge Bulk Bag Splitter provides an easy and smart method for discharging product directly from a bulk bag.

JACKY® Bulk Bag Splitter provides an easy and smart method for discharging product directly from a bulk bag. Simply lower the bulk bag onto the blade of the Bag Splitter, which cuts the base of the bag open. The bulk bag may be left on the Bag Splitter while the contents are dispensed via the discharge hatch on the front face of the bin. The forkliftable frame assists with overcoming lifting height restrictions commonly experienced by the user of bulk bags.

[Jacky Bag Splitter User Manual \(464 KB PDF\)](#)

Benefits:

- Automatically cuts bulk bags when lowered onto Bag Splitter, allowing easy and hassle-free discharge of Bulk Bags.
- Bag may be left on Bag Splitter until empty to prevent transfer of contents to other storage systems.
- Centre Discharge hatch allows precise control of product discharge out of Bag Splitter.
- Helps overcome lifting height problems - Bag Splitter is picked up from underneath.
- The simple operation is quick and relieves liability associated with re-filling bags.
- Blade is removable for safe storage and transport.
- 1200kg/1.73m³ capacity.
- Safe Working Load (SWL) - 1200kg.
- Standard colour Faint Green (Translucent).
- Serial numbering and custom branding available.
