

EXTENSION LEG KIT FOR JACKY BIN

Product Code: **JBALE**

The JACKY Bin Leg Extension Kit allows a JACKY Bin to be lowered to ground level for filling, then raised up to allow easy access to the discharge hatch. Clearance between ground and discharge hatch outlet is 1000mm when raised.

- 65x65mm galvanised steel legs
- Removable pins with lynch pin and chain
- Adds 400mm to bin footprint width
- 1200kg SWL
