

FIRE FIGHTING COUPLINGS

Quality Fire Fighting Couplings, suited to CFA and TFS, perfect for connection to your Orion Tank.

Orion Tanks offer an approved Fire Fighting coupling to fit to the tank, to assist the Tasmanian Fire Services in the unfortunate instance of a fire hoses can be connected in an emergency.

Please click [here](#) to view the recommended set-up from CFA.

NOTE:

In many shires and councils it is now mandatory that dwellings, especially in rural areas, have a tank fitted with a fire coupling that EMS can connect to in an emergency. Please check requirements for your locality.
