

FIRE FIGHTING SIGNAGE

Quality Fire Fighting Signage, designed to ensure compliance meeting mandatory requirements.

Orion Tanks offer an approved Tasmanian Fire Fighting sign that is to be permanently mounted where a static water supply is available (e.g., water stored in a tank, swimming pool, dam or lake). Constructed from durable aluminium with a red and white retroreflective finish, this sign ensures visibility and compliance with safety regulations.

NOTE:

For sign fixing and location requirements please refer to the [Tasmania Fire Service Water Supply Signage Guidelines](#).

SPECIFICATIONS
