

# HOUSEHOLD PUMP

## PKVSD080

Product Code: **PKVSD080**

A top quality pump that is designed to suit large size single storey and double storey dwellings. Variable speed drive provides constant pressure but adjusts the load on the motor to the flow required – i.e. the pump only works as hard as required, whereas a normal pump has a constant load on the motor.

- Good flow rate – 5 - 80L/min
- Adjustable pressure (100kpa – 550kpa)
- Very economical – adjusts power usage according to demand
- Very quiet operation
