

INLET LEAF STRAINER BASKETS

Product Code: **RTS500**

Quality range of polypropylene and mesh, mosquito proof basket strainers, essential for straining objects out before they enter the tank.

Inlet strainer baskets are supplied standard with all Orion Australia rainwater tanks, and are also available as an accessory item. Standard sizes (nominal diameter hole) are 200mm, 300mm, 400mm and 500mm.

Orion Tanks have a quality range of polypropylene Leaf Strainers which are essential for straining foreign objects out before they enter the tank.

- Manufactured for UV stabilised Polypropylene, suitable to withstand harsh weather elements
- Approved to AS/NZS4020 for contact with drinking water
- Supplied standard with mosquito proof mesh (QLD Reg Mesh version available)
