

PELLET FEED TROUGH

Product Code: **PCT36F**

Designed for dry feeding calves, these pellet feed troughs are a must. At 600mm high, they are the perfect height for calves. Their frames have been specifically designed to prevent calves knocking the troughs or injuring themselves.

- Frame design offers greater stability
- UV stabilised poly trough insert for durability
- Ever popular design
- Stackable for storage when not in use a great space saver
