

ROTATOR PLATES & FABRICATED STEEL BASE PALLET BIN

Many poly pallet bins require the addition of metal components to maximise their usefulness. Orion Australia have a dedicated steel fabrication design and manufacturing service to complement the poly manufacturing process. From simple pressed steel rotator plates to fully fabricated bases and trolleys – simply tell us your requirements!

Available in a large range of colours, all fully food contact compliant. Optional galvanized or stainless steel rotator plates are available to allow rotation using rotating forklift head.

Rotationally moulded using industrial quality, UV Stabilised BPA free polymer for excellent performance both indoors and outdoors.
