

# 900 LTR PROCON PALLET BIN

The Procon QP900 bin is ideal for enduring use in many industries.

## AVAILABLE OPTIONS:

- Embossing/Stamping
- Galvanised Rotator Plates
- Drain Bung
- Range of colours

Some examples of industries currently using the QP900 include:

- **Containment for soiled hospital waste:** Such an industry is a hygiene risk zone and requires thorough care and maintenance. The QP900 is able to withstand the constant use and maintain its robustness, as well as being a hygienic solution.
- **Perfect for Fish farms:** Easy to clean, and colour coding ability mean the QP900 suits fish farms perfectly. Aquaculture is a growing industry in Australia and The QP900 is ideal for use both in factories and on farms. The heavy duty construction ticks all the boxes with various fish farms in Australia.
